

STRATEGIC PLAN FOR CAMPS SECURITY FOR THE SECOND HALF OF THE YEAR 2026

PRESENTED BY: CAMPS SECURITY/INTERFACE MANAGER)

Vision and Mission

Vision

To establish a resilient, intelligence-led, and sustainable security system that protects personnel, assets, and operations across all camps through proactive risk management, effective coordination, and continuous improvement.

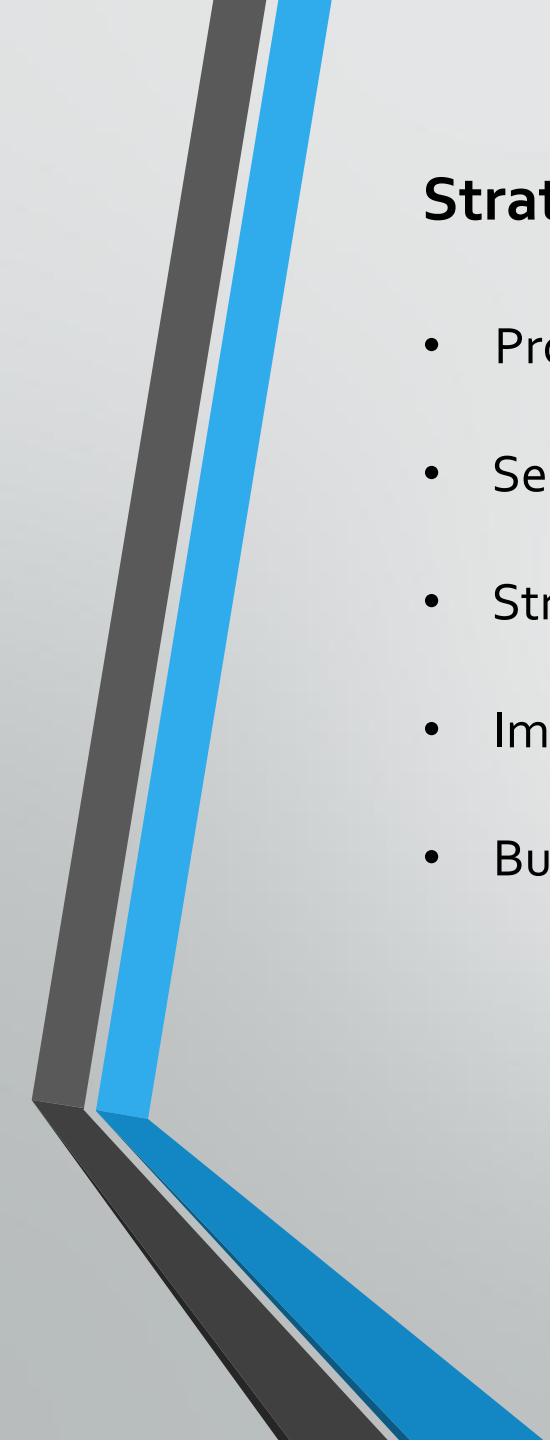

Mission

To prevent, deter, detect, and respond effectively to security threats by implementing layered security measures, leveraging appropriate technology, and collaborating with government security agencies.

Camps and Staff Strength

At the moment, we have a total number of 17 camps across Nigeria:

- Campers – 207
- Security officers – 585 personnel

Strategic Objectives

- Protect Personnel
- Secure Camp Assets
- Strengthen Physical Security
- Improve Threat Detection
- Build Security Capacity

Objectives

Protect Personnel

- Ensure safety and welfare of all camp personnel
- Minimize casualties during incidents
- Develop emergency response and evacuation procedures

Secure Camp Assets

- Protect infrastructure and facilities
- Secure equipment, vehicles, fuel and supplies
- Reduce losses arising from attacks

Strengthen Physical Security

- Conduct regular security risk assessments
- Improve staff security awareness
- Construct observation towers
- Regular vegetation clearance
- Dig at least two layers of defensive trenches around camps

Improve Threat Detection

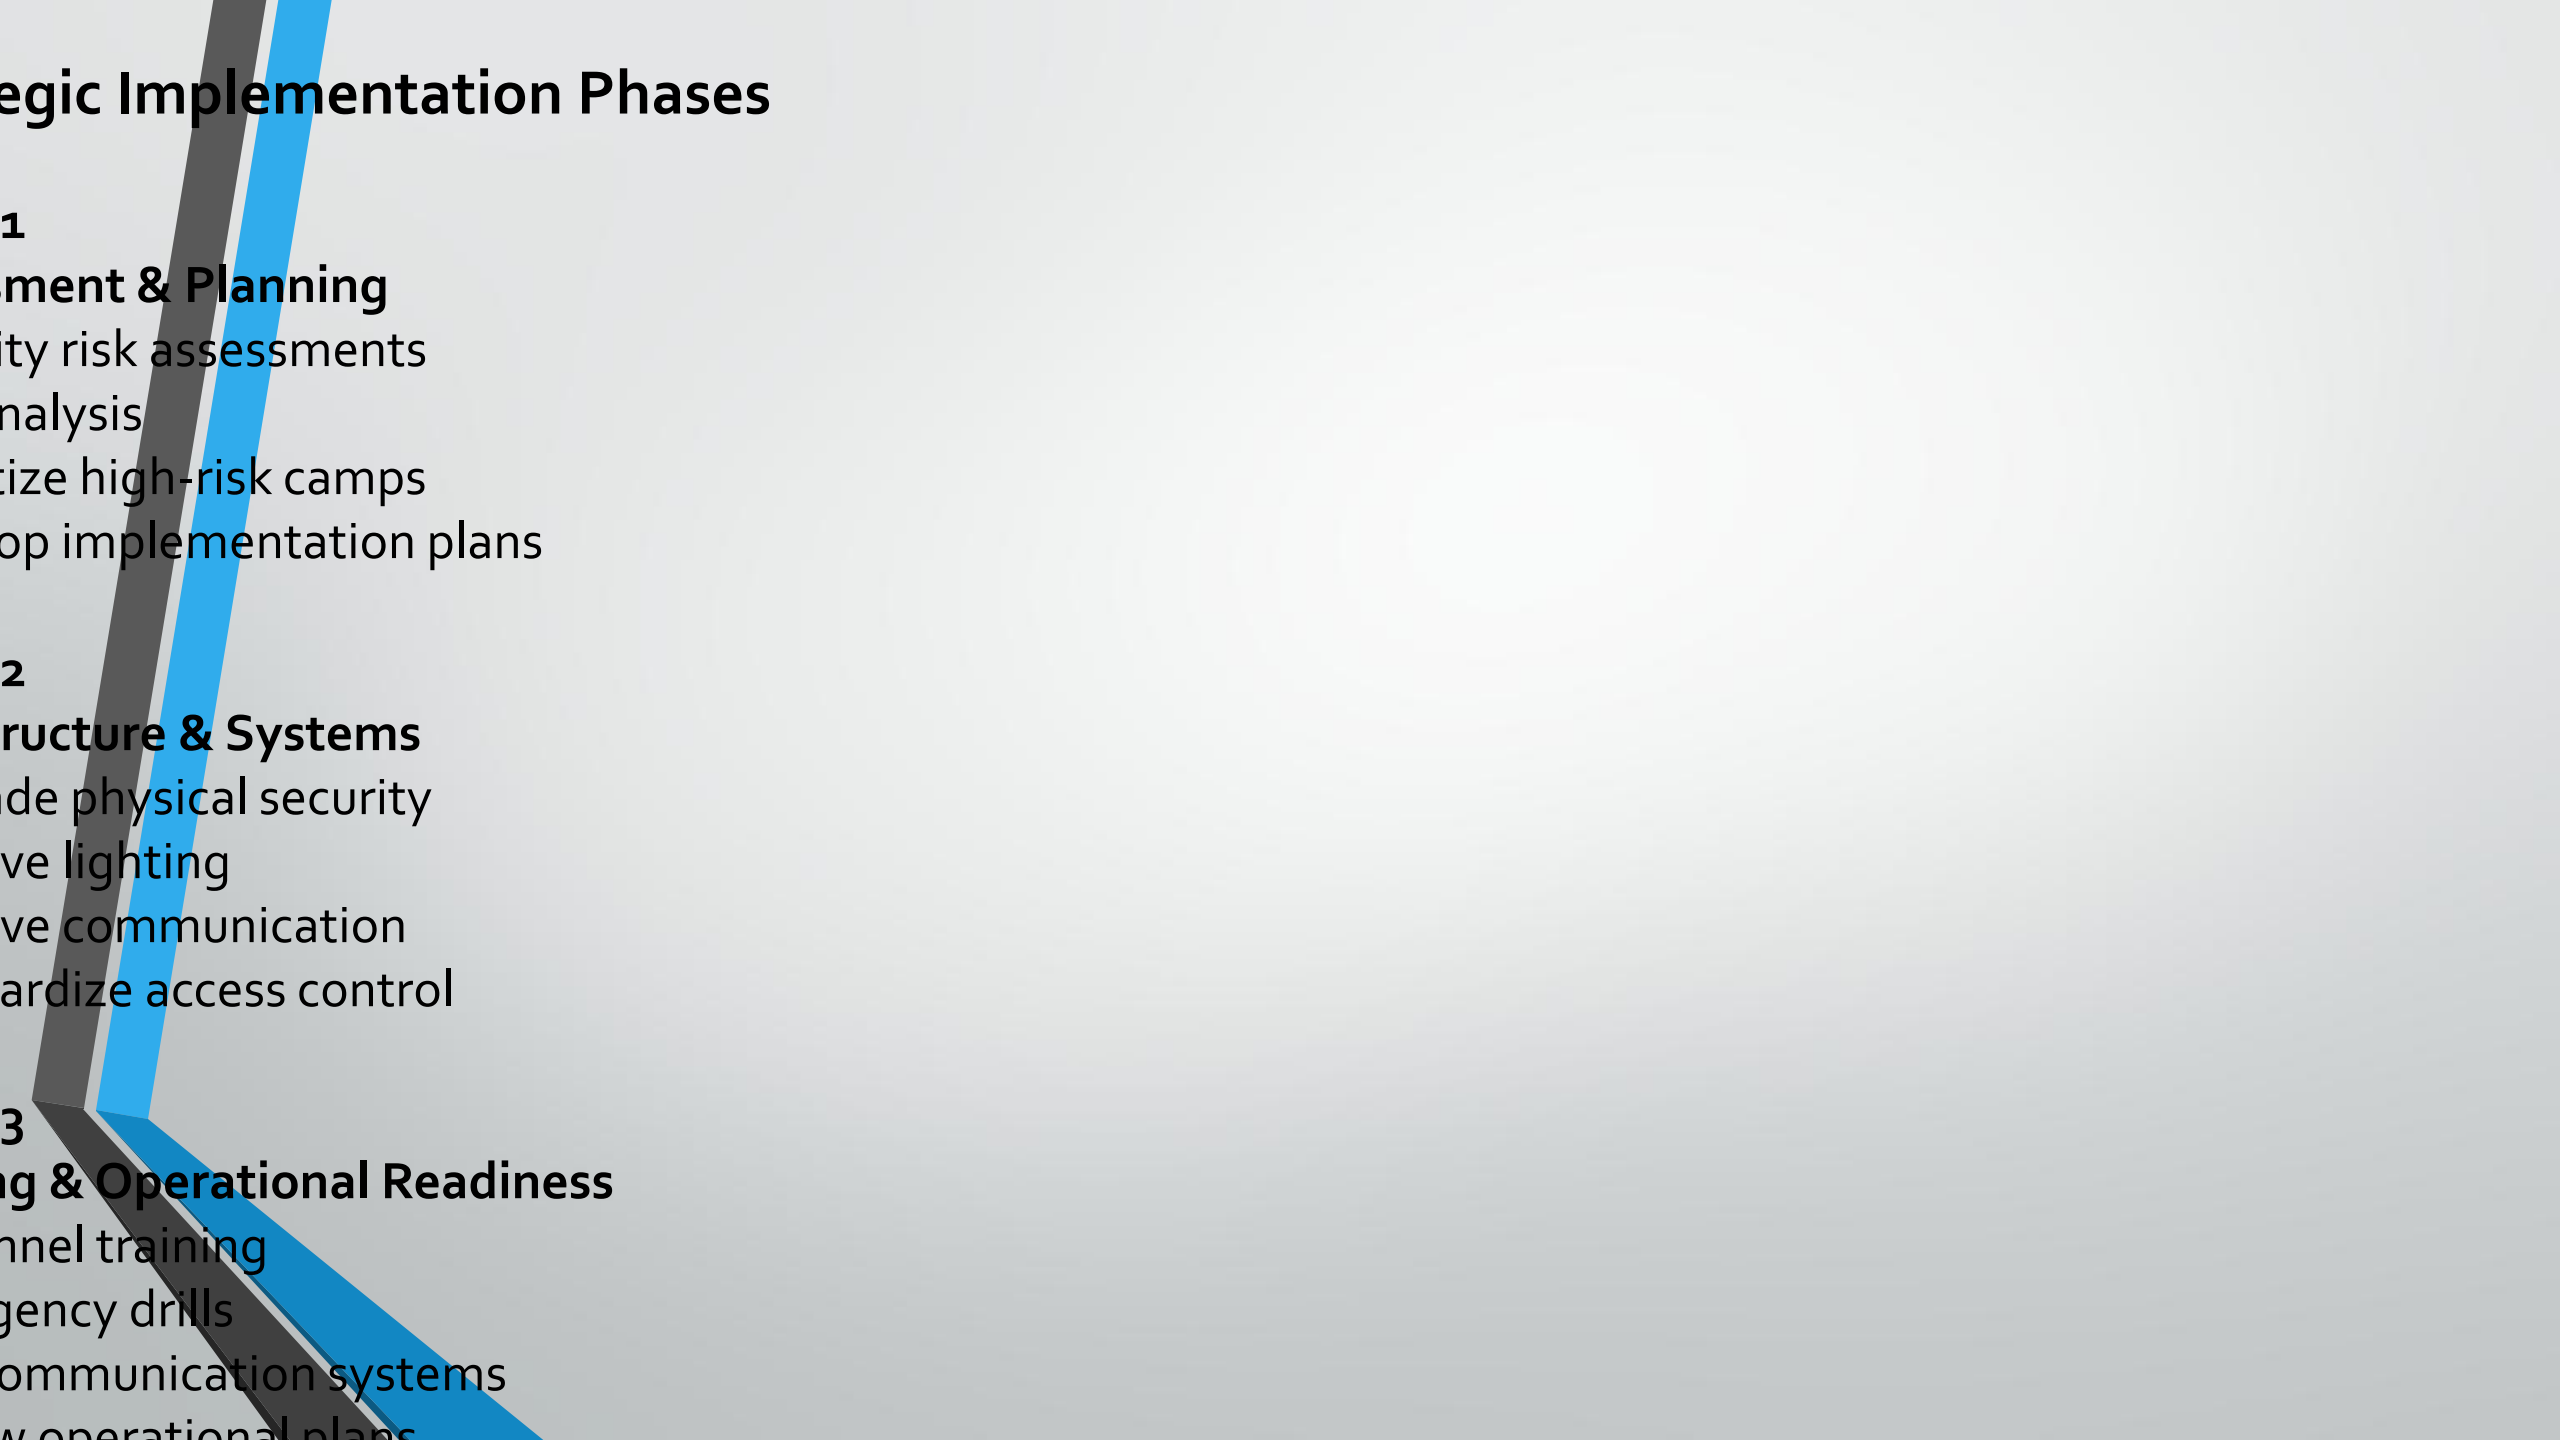

Implement the following technologies:

- Reliable communication systems
- Solar-powered security lighting
- CCTV with recording capability
- GPS tracking for authorised vehicles
- Solar-powered motion-activated lighting
- Motion sensor intrusion alarm systems

Build Security Capacity

- Train security personnel
- Train camp staff
- Conduct periodic refresher training
- First Aid training
- Fire safety awareness
- Emergency response drills
- Promote a strong security culture among campers

Strategic Implementation Phases

1 Assessment & Planning

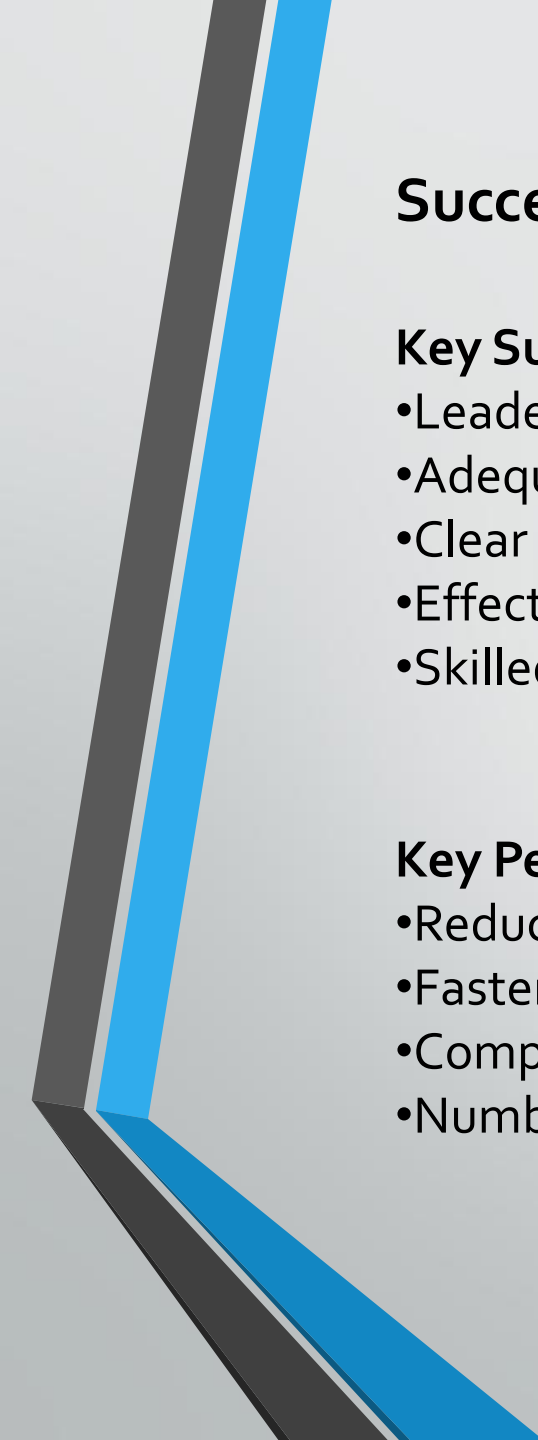

- Conduct security risk assessments
- Perform threat analysis
- Identify and prioritize high-risk camps
- Develop implementation plans

2 Infrastructure & Systems

- Enhance physical security
- Improve lighting
- Strengthen communication
- Standardize access control

3 Training & Operational Readiness

- Conduct personnel training
- Perform emergency drills
- Upgrade communication systems
- Finalize operational plans

Success Factors & Key Performance Indicators

Key Success Factors

- Leadership commitment
- Adequate funding
- Clear SOPs
- Effective communication
- Skilled personnel

Key Performance Indicators

- Reduction in security incidents
- Faster response time
- Compliance with standards
- Number of personnel trained

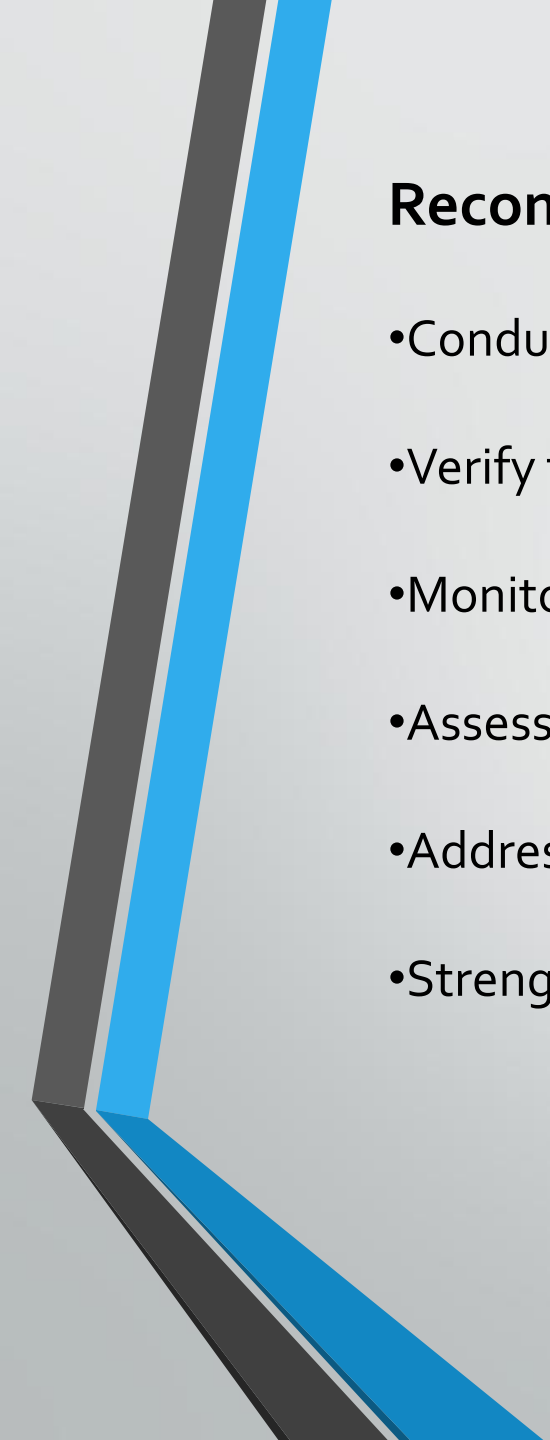

Expected Outcomes & Challenges

Expected Outcomes

- Improved protection of personnel
- Better protection of camp assets
- Reduced vulnerability to attacks
- Faster emergency response
- Increased confidence among campers.

Current Challenges

- Food wastage at camps.
- .Duration of campers in the camp.
- Complaints regarding meals provided to military personnel
- Difficulty determining the actual number of military personnel assigned to each camp for effective welfare planning.

Recommendation

- Conduct periodic visits/inspections of all camps.
- Verify the actual strength of security personnel at each camp.
- Monitor welfare and feeding arrangements for deployed military personnel.
- Assess compliance with established security standards.
- Address emerging security gaps promptly.
- Strengthen collaboration with government security agencies.

THANK YOU
