

Strategic Plan: Organizational Structure & Process Optimization

June 2026 — A review of structures, workflows, and operational optimization across six EIB Group subsidiaries, assessing strengths, bottlenecks, and opportunities for scalable growth.

INTERFACE & WORKFLOW

SUBMITTED BY ANTHONY ITEGBE, GROUP HEAD

Executive Summary

Six subsidiaries assessed for structure, workflows, and optimization. Key recommendations:

Standardize Procedures

Unified operating procedures across subsidiaries

Automate & Digitize

Adopt digital workflow systems and ERP

Decentralize Authority

Delegate decision-making to reduce bottlenecks

Strengthen Performance

Implement KPIs and management dashboards

Cross-Subsidiary Synergy

Enhance integration and collaboration

Bright FM — Broadcasting

Structure

GM → DGM (Programming Unit, News Dept) + Engineering Dept. Lean hierarchy with minimal bureaucracy.

7-Step Workflow

Planning → Content Development → Pre-Broadcast Coordination → Broadcast → Issue Escalation → Commercial Activities → Performance Review → Continuous Improvement

Key Gaps

- No Commercial Unit → Revenue constraints
- Limited Digital Media Team → Limited audience reach
- High GM dependence → Delayed decisions

📌 **Recommended:** Establish Sales & Marketing, Digital Media Unit, and delegate authority.

POCTOVA — Garment Manufacturing

9-Step Production Lifecycle

Vertically integrated process from design through dispatch with strong internal controls.

Structure

GM → DGM → Admin, HR, Internal Control, Production Manager → Supervisors → Tailors, Laundry, Maintenance

Strengths

- Strong quality control framework
- Defined production sequence
- Effective internal control

Gaps & Fixes

- Manual inventory → Implement ERP
- Multiple approval bottlenecks → Streamline
- No ERP → Digitize workflow

Add: Sales & Customer Relations, Planning & Scheduling

SECTION 3

Bright Echeфу Foundation — Social Impact

8-Step Project Cycle

Key Gaps

- Limited staffing depth
- No resource mobilization unit
- Heavy reliance on few personnel

Recommended: Finance & Admin, Partnerships & Resource Mobilization, Communications,

01

Needs Assessment

Community analysis & data collection

02

Proposal & Approval

Concept writing, Board & ED approval

03

Budget & Planning

Funds allocation, timeline & activities

04

Implementation → M&E → Reporting
Execution, impact assessment, final report

INTERFACE AND WORKFLOW

EIB Stratoc — Security & Surveillance

Operations

UAVs, PTZ, CCTV, Fusion Centres (Main, Cindy, PSAC) with tiered escalation across field camps.

11-Step Workflow

Feeds → Analysts → Observation → Logging → Team Lead
→ Camp Response → Supervisor → Asst. Manager →
Manager → DGM → GM

3-Level Escalation

- **Level 1:** Routine — resolved operationally
- **Level 2:** Significant — camp management
- **Level 3:** Critical — immediate GM/DGM escalation

Gaps

- Manual reporting → Digital platform
- Limited automation → AI-assisted tools

Briech Atlantic — Real Estate & Construction

6 Departments

Construction

PM, QS, Site Engineers

Procurement

Managers, Officers,
Storekeepers

Finance & Admin

Accounts, HR, Admin

Estate Development

Estate Managers, Officers

Interior & Design

Designers, Artisans

Marketing & Biz Dev

Marketing, Branding, Digital

Key Gaps

- No independent QA → Quality risk
- Limited digitization → Poor visibility
- No customer experience function

Strategic opportunities: Affordable housing, smart estates, green building, facility management

Luftreiber Automobile — Service Center

10-Step Service Journey

Arrival → Advising → Diagnosis → Job Allocation →
Repairs/Bodyshop → Parts → QC → Cleaning → Invoicing →
Delivery

Critical Vacancies

- Procurement & Inventory Manager
- Japanese, German, AC Technicians
- Electricians (2), Front Desk Officer

Gaps

- Single diagnostic technician → bottleneck
- No independent QA function
- Manual workflow → no digital tracking

Opportunities: Fleet contracts, EV servicing,
insurance partnerships, mobile servicing

Action Plan — All Subsidiaries

Three-phase implementation for quick wins and transformation foundation.

Conclusion & Path Forward

EIB Group has a **strong, diversified foundation** across six subsidiaries. The identified improvements present a clear pathway to greater efficiency, accountability, and institutional maturity.

Operational Excellence

Improved processes and accountability across all subsidiaries

Digital Transformation

Gradual transition from manual to technology-driven operations

Institutional Maturity

Increased scalability and coordinated corporate ecosystem
