ACTIVE SUBMISSIONS

4

REDACTED (BLACK)

REPRESENTATIVE	SUBSIDIARY	STATUS	SUBMISSION DETAIL LEVEL
Kenneth Mbadugha (GM)	Briech Atlantic	Submitted	Comprehensive
Miss Princess	POCTOVA	Submitted	Basic / Concise
Francis Echefu	Briech UAS	Submitted	Comprehensive, structured
Grace Nnaji	EIB Stratoc	Submitted	Comprehensive
Marie Pearl	Luftreiber Automobile	Submitted	Basic, operational focus
Oluwaseyi Akinfela	BEF (Bright Echefu Foundation)	Submitted	Structured, with budget estimates

REPRESENTATIVE	SUBSIDIARY	STATUS	SUBMISSION DETAIL LEVEL
Engineer Johnson Makoji	Bright FM	Submitted	Comprehensive
Rejoice	Giga Forensics	Submitted	No challenges reported
Fadekemi Veronica Okunoye	BLACK (RAW Subsidiary)	Redacted	To be handled separately
Gideon Eden	BLACK (PSAP Subsidiary)	Redacted	To be handled separately
Moses H Bayawa	BLACK (SAC Subsidiary)	Redacted	To be handled separately
Unande S. Geraldine	BLACK (HR/Admin)	Redacted	To be handled separately
N/A	Luft PayTV	N/A	No representative assigned

Consolidated Intelligence Report

Cross-subsidiary analysis based on active Task Force submissions.

Operational Challenges Matrix

Infrastructure / Equipment	EIB Stratoc	Luftreiber	POCTOVA
Workforce Capacity / Staffing	Briech Atlantic	POCTOVA	Briech UAS
	Bright FM		
Business Development / Marketing	Briech Atlantic	Bright FM	
Supply Chain / Accessories	Luftreiber	POCTOVA	
Production Volume & Skill Continuity		Briech UAS	
Supervisory Workload / Burnout		EIB Stratoc	

Skill Gap Analysis

Technical & Mechanical

UAV assembly, diagnostics, AV tech

Luftreiber

Briech UAS

EIB Stratoc

Project & Financial Management

Resource Requirements Summary

CATEGORY	DETAILS	ESTIMATED BUDGET (₦)
External Experts	Specialized trainers, M&E consultants, finance coaches, radio presenters.	₦5,000,000 – ₦12,500,000
Equipment & Tech	Workstations, drone batteries, AV infrastructure, software, spare parts.	₦15,000,000 – ₦35,000,000
Personnel (Q3)	Quantity Surveyors, technicians, business development and marketing staff.	₦8,000,000 – ₦18,000,000
Infrastructure	Workshop space, facility maintenance, mobility/fuel support.	₦6,000,000 – ₦15,000,000
Total Estimated Funding Requirement:		₦34,000,000 – ₦80,500,000

Strategic Alignment Matrix

Mapping subsidiary feedback directly to the 9 Initiatives of the 90-Day Strategic Plan.

90-DAY INITIATIVE	OBJECTIVE	TASK FORCE ALIGNMENT
1. Organization-Wide TNA	Identify skill gaps & challenges	All 7 submissions directly feed into this assessment.
2. Staff Competency Mapping	Categorize staff by role & competency	Driven by avionics gaps (Briech UAS), diagnostics (Luftreiber), reporting (EIB Stratoc), and project management (BEF).
3. Performance Bottleneck Review	Customer complaints, delays, errors	Targets project delays (Briech Atlantic), production delays (POCTOVA), and spare parts (Luftreiber).
4. Capability Improvement	Targeted training delivery	All submitted training priorities form the curriculum.
6. Knowledge Sharing Platform	Cross-functional learning	Supports cross-training (Briech UAS) and knowledge transfer programs (EIB Stratoc).
8. Culture & Accountability	Workplace behaviors, ownership	Addresses staff welfare/shifts (POCTOVA) and mentorship structures (Briech UAS).

Briech Atlantic

KENNETH MBADUGHA (GM)

TOP 3 OPERATIONAL CHALLENGES

- Inadequate Business Development and Marketing Capacity.
- Insufficient Technical and Operational Resources (tools, tech infrastructure).
- Workforce Capacity and Organizational Structure Gaps as operations expand.

PROPOSED INTERVENTIONS & RESOURCES

- Recruit dedicated BD team, Quantity Surveyor, and support personnel.
- Provide dedicated vehicles for marketing activities.
- Procure high-performance workstations and design software.
- Upgrade project management systems.

POCTOVA

MISS PRINCESS

TOP 3 OPERATIONAL CHALLENGES

- Power supply issues during production.
- Insufficient tailoring staff placing employees under pressure.
- Delay and shortage of accessories for production.

RECOMMENDATIONS

- Implement off-days/shifts for staff; salary increments.
- Ensure timely availability of accessories.
- Provide central printer/copier, water dispensers, and microwaves.
- Service AC units and fumigate facility.

TOP 3 OPERATIONAL CHALLENGES

- Cross-functional challenges in external UAV missions (communication, cyber threats, adversarial interference).
- Limited production volume causing underutilization of equipment.
- Personnel skill continuity degradation during low-production periods.

CRITICAL SKILL GAPS

- Hands-on assembly & integration proficiency.
- Avionics & Flight Controller configuration.
- Quality Assurance & inspection protocols.
- Technical Documentation & MRO record-keeping.

PROPOSED INTERVENTIONS

- Pre-deployment operational training for ISR/FPV teams.
- Structured practical drills and internal tech workshops during idle periods.
- Cross-training programs and junior/senior mentorship pairing.

TOP 3 OPERATIONAL CHALLENGES

- Inconsistent technical infrastructure across surveillance sites.
- Ageing and insufficient equipment inventory (drone batteries).
- Excessive supervisory workload (monitoring, reporting, ops).

CRITICAL SKILL GAPS

- Advanced MS Word for structured reporting.
- Technical/intelligence report writing.
- Time management & workload prioritization.

PROPOSED INTERVENTIONS & RESOURCES

- Standardization of AV/transmission infrastructure; new drone batteries.
- Intelligence analysis and report-writing workshops.
- Time management training for supervisory staff.

TOP OPERATIONAL CHALLENGES

- Lack of adequate technical training for workshop personnel.
- Delays in the supply of spare parts (vendor debt).
- Insufficient workshop/body shop space.

CRITICAL SKILL GAPS

- Advanced vehicle diagnostics and fault-finding.
- Modern mechanical repair techniques.
- Electric Vehicles (NEV) training.
- HSE awareness.

PROPOSED INTERVENTIONS

- Advanced diagnostic training; regular workshops on new tech.
- Customer care & front desk operative training.
- Improved inventory planning and HSE compliance training.

BEF (Bright Echefu Foundation)

OLUWASEYI AKINFELA

CRITICAL SKILL GAPS & PROPOSED TRAINING

- **Project Management:** Planning, implementation, reporting (₦100K-~~₦300K~~).
- **M&E (MEAL):** Data collection, impact measurement (₦250K-~~₦450K~~).
- **Financial Management:** Budgeting, accounting (₦200K-~~₦550K~~).
- **Leadership:** Team management, coaching (₦300K-~~₦600K~~).

ESTIMATED SUBSIDIARY BUDGET

Total Range: ₦850,000 – ₦1,900,000

(Kept as is: covering specific training modules for Project Mgmt, M&E, Finance, and Leadership)

TOP OPERATIONAL CHALLENGES

- Limited specialized radio manpower.
- Need for stronger marketing and commercial structure.
- Limited resources for audience growth and content expansion.

CRITICAL SKILL GAPS

- Stronger radio presentation and storytelling.
- Advanced content development and program planning.
- Digital media and online engagement.
- Radio marketing, sales, and sponsorship development.

PROPOSED INTERVENTIONS

- Presenter coaching; content development training.
- Marketing and sales training for sponsorships.
- Hire 2 experienced presenters and 2 marketing executives.
