

Plans for the Next Half of the Year

PRESENTED BY GENERAL MANAGER, GIGA
FORENSICS

Executive Summary of H1

- ▶ The case closure rate for the reporting period stood at 78%, surpassing the organizational target of 70%, demonstrating improved operational efficiency and effective case management.
- ▶ We recorded a lot of successes from intelligence provided thereby picking up criminal elements.
- ▶ □ The average case processing turnaround time was 2 hours, significantly outperforming the target of 5 hours. This rapid response capability enhanced the timely delivery of intelligence and forensic support.

Executive Summary of H1

The facility continued to experience a number of recurring infrastructure-related challenges during the reporting period that have had a measurable impact on productivity, task completion timelines, and overall operational efficiency. These challenges are not attributable to staff performance but to systemic environmental and technical factors that require urgent attention at a facility and organizational level.

- ▶ Unstable Power Supply
- ▶ Network Downtime
- ▶ Application Downtime

As we enter the second half of the year, our focus is on strengthening GIGA Forensics position through technology, people, partnerships, and operational excellence.

Strategic Priorities
