

DEPARTMENTAL WORKFLOW

All the departments in a logical order based on their functions within the workflow of Poctova Ltd, from the initial design phase to final delivery:

1. Design Department
2. Sample Department
3. Planning Department
4. Cutting Department
5. Sewing Department
6. Finishing Department
7. Quality Control Department
8. Laundry Department
9. Packaging Department
10. Logistics Department
11. Sales and Marketing Department
12. Inventory Department
13. Accounting Department
14. Maintenance Department
15. Legal Department
16. Admin Department
17. Security Department

Workflow Overview:

1. Start with **DESIGN** to create product concepts.
2. Move to **SAMPLE** for prototype production.
3. **PLANNING** follows to schedule production.

4. The **CUTTING** department prepares the materials.
5. Then, the **SEWING** department assembles the garments.
6. **FINISHING** adds the final touches.
7. **QUALITY CONTROL** ensures standards are met.
8. The **LAUNDRY** department cleans and treats products.
9. **PACKAGING** readies items for shipment.
10. The **LOGISTICS** department manages distribution.
11. **SALES AND MARKETING** promote the final products.
12. **INVENTORY** tracks raw materials and finished goods.
13. **ACCOUNTING** manages financial records and reports.
14. **MAINTENANCE** ensures equipment is running efficiently.
15. **LEGAL** handles compliance and regulatory matters.
16. **ADMIN** supports operational needs.
17. **SECURITY** safeguards the facility and employees.

This order reflects the natural flow from product conception to delivery, ensuring that each department's operations support the next step in the process.
