Overview

POCTOVA Ltd is a leading garment manufacturing company specializing in the production of high-quality apparel for various markets. Founded in 2025, POCTOVA Ltd has established itself as a reliable partner for brands seeking innovative design and exceptional craftsmanship.

Mission Statement

At POCTOVA Ltd, our mission is to deliver high-quality garments that combine innovative design with exceptional craftsmanship. We are committed to sustainability, reliability, and customer satisfaction, ensuring our products not only meet but exceed the expectations of our valued clients around the globe.

VISION STATEMENT

POCTOVA Ltd envisions becoming a leading name in the global garment industry, recognized for our commitment to quality, creativity, and sustainable practices. We aim to inspire fashion trends through innovative solutions, foster strong partnerships, and contribute positively to the communities we serve

Core Values

- Quality: We are dedicated to delivering superior products that meet the specific needs of our customers.
- Integrity: We operate with transparency and honesty in all our dealings, building trust with our customers and suppliers.
- Innovation: We continuously seek advancements in materials and production techniques to provide cutting-edge solutions.
- Service: We prioritize exceptional customer support, ensuring that our clients are satisfied at every stage of the purchasing process.
- Community Engagement: We actively contribute to the local economy and support initiatives that benefit our community.

STANDARD OPERATING PROCEDURE(SOP) FOR POCTOVA LTD

This Standard Operating Procedure (SOP) for POCTOVA LTD outlines the roles, responsibilities, and procedures for each department. Below is a template for POCTOVA Ltd, structured by department.

1. Design Department

Objective:

To create innovative designs that meet market demands.

Procedures: Conduct market research for trends.

- ▶ Develop design concepts and sketches
- ▶ Utilize software for design models (e.g., CAD).
- ▶ Collaborate with samples and production teams for feasibility.

2. Sample Department

Objective:

To produce and test prototypes before mass production.

Procedures:

- ▶ Receive design specifications from the design department.
- ▶ Create samples based on approved designs.
- ▶ Conduct fittings and adjustments as necessary.
- ▶ Document and evaluate sample performance.

3. Planning Department

Objective:

To create production plans that ensure efficiency and timeliness.

Procedures:

- ▶ Analyze workload and resource availability.
- ▶ Develop production schedules.
- ▶ Coordinate with all departments for resource allocation.
- ▶ Monitor production progress and adjust plans as needed.

4. Cutting Department

Objective:

To prepare fabric for production through efficient cutting processes.

Procedures:

- ▶ Review production plans for fabric requirements.-
- ▶ Lay out fabric according to patterns.-
- ▶ Cut fabric pieces with precision.-
- ▶ Maintain and document cutting equipment settings.

5. Sewing Department

Objective:

To assemble garment pieces into finished products.

Procedures:

- ▶ Follow assembly instructions and production schedules.
- ▶ Ensure that sewing machines are properly set up and maintained.
- ▶ Perform quality checks during the sewing process.
- ▶ Document production output and any issues encountered.

6. Finishing Department

Objective: To complete garments with finishing touches.

Procedures:

- ▶ Inspect garments for defects post-sewing.
- ▶ Perform ironing, folding, and any final adjustments.
- ▶ Prepare garments for quality control inspection.

7. Quality Control Department

Objective:

- ▶ To ensure that products meet quality standards.

Procedures:

- ▶ Develop quality benchmarks based on industry standards.
- ▶ Conduct inspections at various production stages.
- ▶ Document and report quality issues to relevant departments.
- ▶ Implement corrective actions for recurring problems.

8. Laundry Department

Objective:

- ▶ To clean and treat garments before packaging.

Procedures:

- ▶ Follow fabric care instructions for cleaning processes.
- ▶ Track laundry loads and processing times.
- ▶ Inspect garments post-laundry for damage or shrinkage.

9. Packaging Department

Objective:

To prepare finished garments for shipment.

Procedures

- ▶ Check finished goods against orders.
- ▶ Package garments according to specifications.
- ▶ Label packages with required information.
- ▶ Maintain records of packaged goods.

10. Account Department

Objective:

- ▶ To manage financial transactions and reporting.

Procedures:

- ▶ Process invoices and payments.
- ▶ Maintain financial records.
- ▶ Prepare periodic financial reports.
- ▶ Ensure compliance with financial regulations.

11. Inventory Department

Objective:

- ▶ To manage raw materials and finished products.

Procedures:

- ▶ Conduct regular inventory counts.
- ▶ Track inventory levels and reorder supplies as needed.
- ▶ Maintain records of stock movement.
- ▶ Coordinate with the logistics department for incoming and outgoing goods.

12. Logistics Department

Objective:

- ▶ To manage transportation and distribution of goods.

Procedures:

- ▶ Develop shipping schedules and routes.
- ▶ Coordinate with carriers for delivery.
- ▶ Track shipment status and ensure timely delivery.
- ▶ Maintain shipping records.

13. Maintenance Department

Objective:

- ▶ To ensure machinery and facility upkeep.

Procedures:

- ▶ Perform regular equipment maintenance checks.
- ▶ Document maintenance activities and schedules.
- ▶ Address repairs promptly to minimize downtime.

14. Sales and Marketing Department

Objective:

To promote and sell garments effectively.

Procedures:

- ▶ Develop marketing strategies and campaigns.
- ▶ Conduct market analysis to identify opportunities.
- ▶ Maintain customer relationships and respond to inquiries.
- ▶ Track sales data and prepare reports.

15. Legal Department

Objective:

- ▶ To ensure compliance with laws and regulations.

Procedures:

- ▶ Review contracts and agreements.
- ▶ Advise on legal matters related to operations.
- ▶ Ensure compliance with labor and trade laws.
- ▶ Manage intellectual property rights.

16. Admin Department

Objective:

To support organizational functions and personnel.

Procedures:

- ▶ Manage office supplies and equipment.
- ▶ Coordinate meetings and communications.
- ▶ Maintain employee records and documentation.
- ▶ Support HR with recruitment and onboarding.

17. Security Department

Objective: To ensure the safety and security of the facility and employees.

Procedures:

- ▶ Implement security protocols for access control.
- ▶ Conduct regular security inspections and audits.
- ▶ Address incidents and maintain records.
- ▶ Train staff on safety procedures and emergency protocols.

This SOP template provides a foundational structure. However, Regular reviews and updates of the SOP are recommended to maintain operational efficiency and compliance with industry standards.

MOVING POCTOVA TO INDUSTRY LEADERSHIP

90 Days / 6 month of Focus

90 Days / 6 month of Execution

90 Days / 6 month of Measurable Growth

ROI, BREAK-EVEN & KEY METRICS

METRICS BOX

- Investment: ₦4.8M to produce 400pcs Drop 1
- MOQ: 50pcs per style → Low-risk testing, cut losers fast
- BE: 200pcs total → Break-Even point. 50% sell-through = no loss
- Price: ₦30,000 avg per piece
- Revenue @ Sellout: ₦12M from 400pcs
- Gross Profit @ Sellout: ₦7.2M
- ROI: 150% at sellout | 25% at BE 200pcs
- Payback: <60 Days = 14 days production + 45 days sales
- Margin: 60%+ protected on all RTW
- Lead Time: 14 Days from fabric to finished

We need ₦4.8M to produce 400pcs for Drop 1. At ₦30k average, full sellout is ₦12M. That's ₦7.2M gross profit. ROI = 150%.

Break-Even is 200pcs. So at 50% sell-through, Poctova does not lose money. That's our safety net.

Payback is under 60 days: 14 days to produce, 45 days to sell.

Risk is low because MOQ is 50pcs per style. If a design doesn't move, we cut it and scale winners. No dead stock.

Margins are 60%+ and we have 20+ dealers ready to supply
